

Demonstrating and extracting value from Communities

Our experiences of CoPs and where do we want to focus over the next two days

Experiences

- Describe a time when your Community of Practice was acting at its best.

Experiences and Expectations

- Select a question:
 - What is the support **environment** of your organization? What makes the business and employees comfortable with the development of communities of practice?
 - What are the **practices** that have created successful communities of practice, and what sustains them?
 - Have your communities of practice had a beneficial **impact** on individual members? How?
 - What is right about the **strategy/infrastructure**? What works best?

Experiences and Expectations

- Discuss the question, grounding your points in examples as much as you can.
- What are you seeing? What's missing?
- What questions do you want to keep in mind during these two days?

Experiences and Expectations

- Select a question:
 - What is the support **environment** of your organization? What makes the business and employees comfortable with the development of communities of practice?
 - What are the **practices** that have created successful communities of practice, and what sustains them?
 - Have your communities of practice had a beneficial **impact** on individual members? How?
 - What is right about the **strategy/infrastructure**? What works best?

Experiences and Expectations

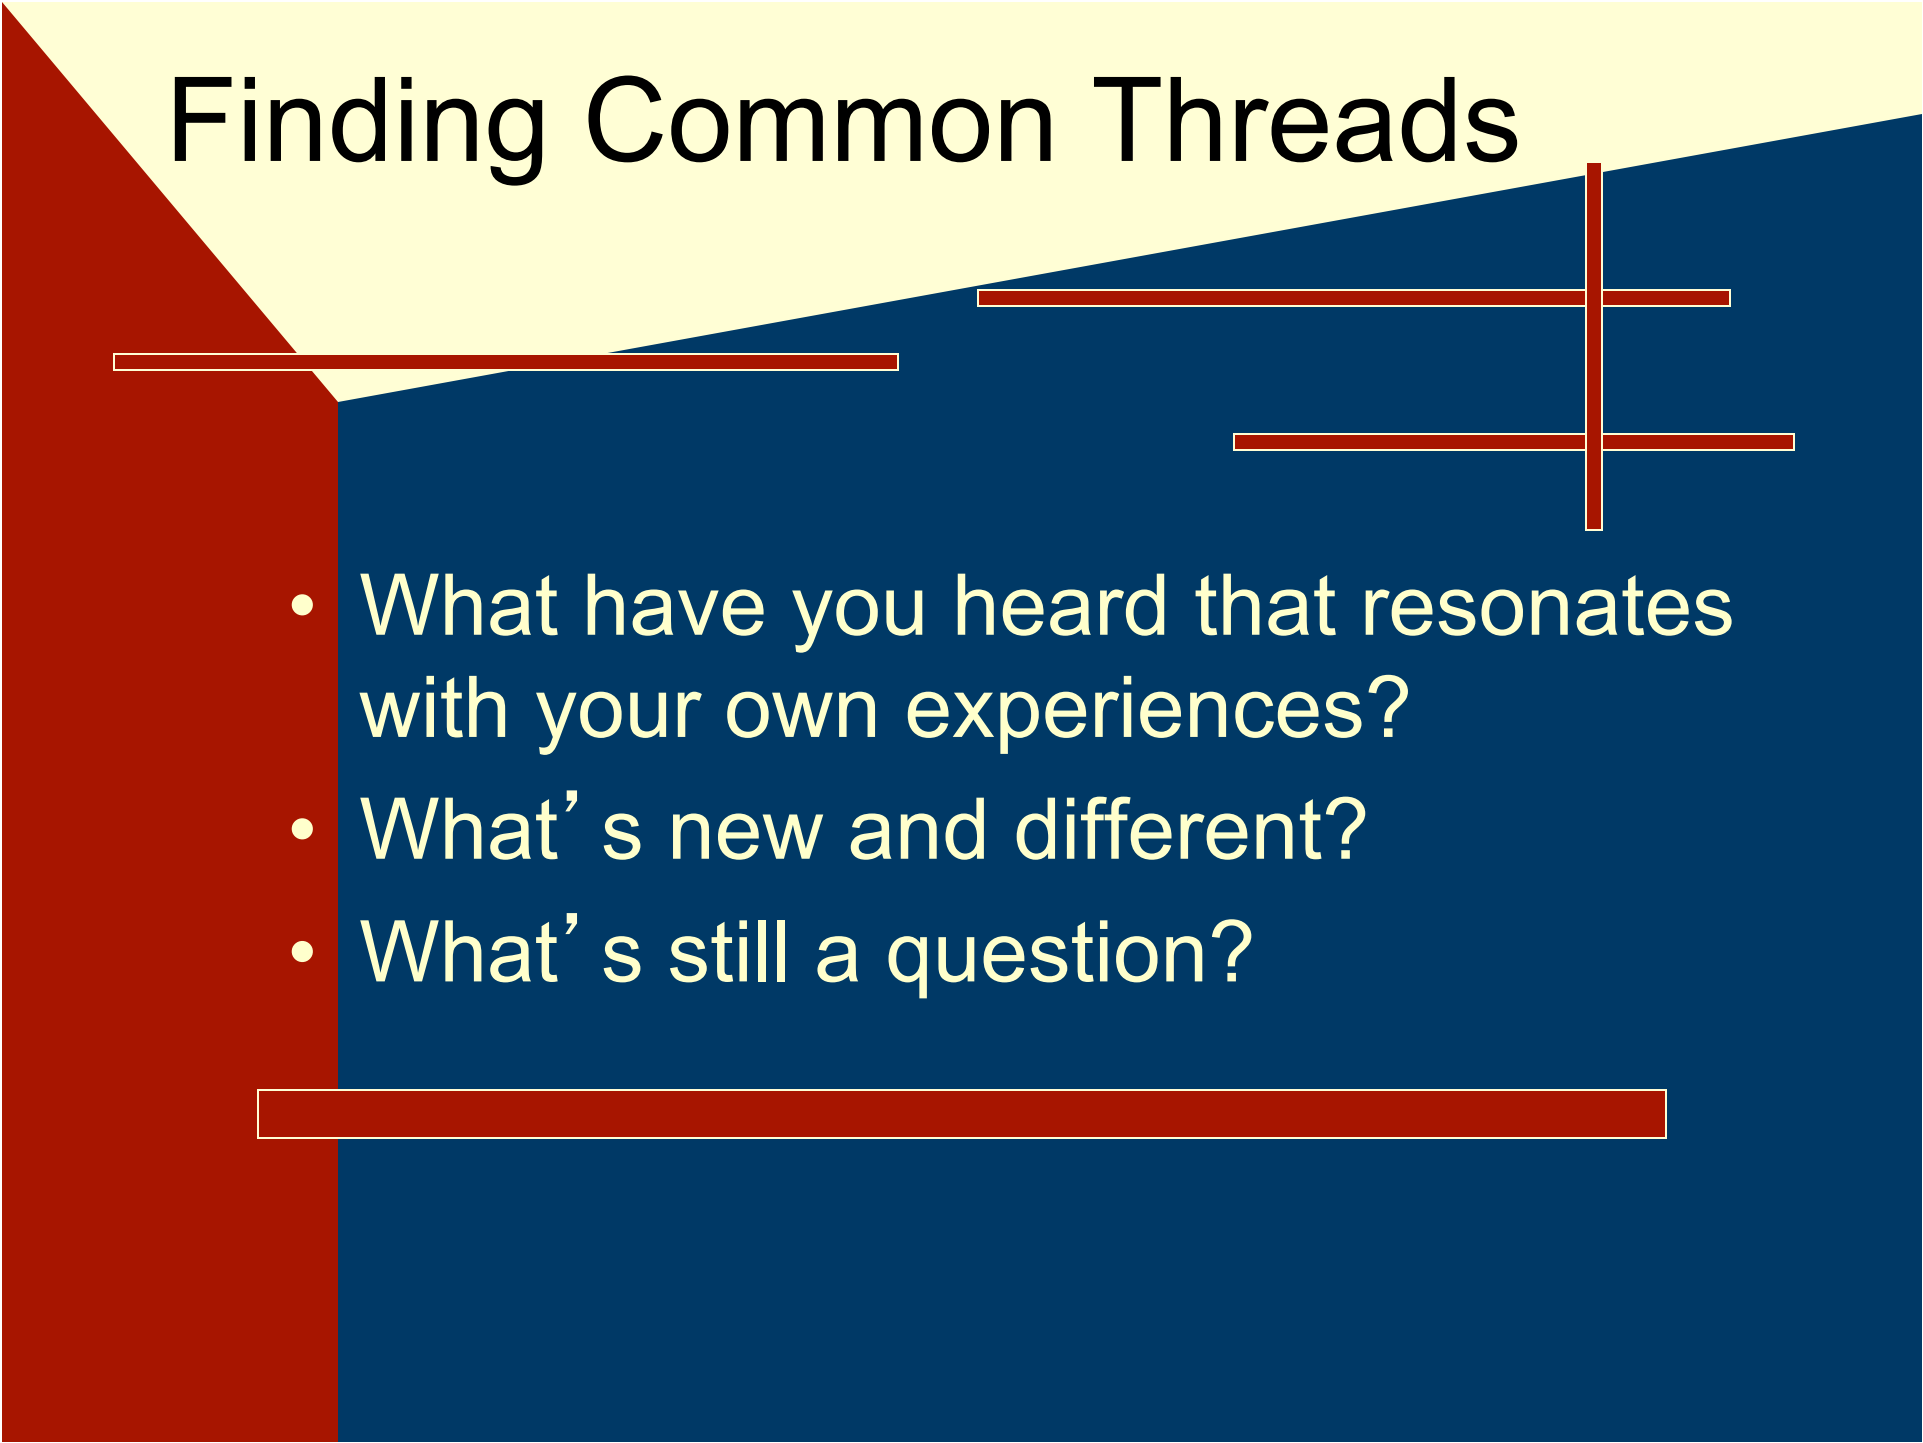

- Points of inquiry

Demonstrating and extracting value from Communities

Distinguishing common threads in CoPs success stories -- what have we learned so far?

Finding Common Threads

- What have you heard that resonates with your own experiences?
- What's new and different?
- What's still a question?

Finding Common Threads

Demonstrating and extracting value from Communities

Creating clarity around CoPs
through Stories

Creating a new story

- Create a story that captures what you have learned about successful CoP's
 - How are the common threads woven together?
 - Who?
 - Where?
 - When?
 - What?
